2 Trucks for someone who need parts or can put parts together to give them 1 good running truck. Gmc has a cracked frame and the Silverado has the reverse out on the transmission. GMC has a good transmission and the Silverado has a decent frame.

1- 1999 GMC Sierra

1-2001 Chevy Silverado

Ton of new parts that would fit either truck Both are mechanically sound except for the stated issues!

99 GMC has had the following installed:

New CV shafts both front wheels

New Brakes and Calipers on the front

New wheel bearings on the front

Hankook Tires with less then a 1000 miles

Great interior

Bed cover

Lower miles (155000) on a strong running Vortec 5.3

4wheel drive works on both vehicles.

Have new back lines for either truck but not both
New Camshaft Brake
